H.J. BAKER ANNOUNCES FREE METABOMET OFFER.

Dairy Operators Eligible For One Free Bag of Rumen Protected Methionine With The Purchase Of Nine Bags At Regular Price

LITTLE ROCK, AR, May 23, 2016 – Officials at H.J. Baker Animal Health & Nutrition announced today that now through August 31, 2016, dairy operators can get one free bag of MetaboMet Rumen Protected Methionine with the purchase of nine bags at regular price.

Welcome Relief For Dairy Operators

“With milk at its lowest price in a decade, we wanted to show our support for the dairy industry by easing input costs and offering an opportunity for increased outputs,” said H. J. Baker Animal Health & Nutrition General Manager Dr. Clark Springfield. “A free bag of encapsulated methionine is a good start. Look, we’re all in this together. So it’s our job to find a way to help the people who are out there rolling up their sleeves every day, knowing the market for dairy products is simply brutal.”

A Proven Performer

MetaboMet Rumen Protected Methionine can help dairy operators increase volume, improve milk fat and protein components, and increase profitability. Thanks to its unique fatty acid bypass coating, MetaboMet delivers a full 340 grams of metabolizable methionine for every 1,000 grams fed. By using MetaboMet to balance amino acids, dairy operators can improve overall metabolism and immune function within their herds, leading to better performance.

To learn more about the MetaboMet free bag offer, contact your H.J. Baker Sales Representative, call (501) 664-4870, or visit metabometfreebagoffer.com.
