GLOBAL AGRICULTURE FIRM H.J. BAKER HIRES DIRECTOR OF TIGER-SUL PRODUCT MANAGEMENT & INTERNATIONAL SALES

Martin Campfield Joins Global Agriculture Firm H.J. Baker's Tiger-Sul Products

WESTPORT, CT USA – (September 4, 2013) – Global agriculture firm, H.J. Baker today announced that Martin Campfield, has joined their fertilizer group as Director of Tiger-Sul Product Management and International Sales.

Mr. Campfield will be responsible for building and maintaining relationships with key accounts both domestically and internationally. He will facilitate supply chain flow, production, and delivery of Tiger-Sul Products; serve as an integral part of both the marketing and R&D teams; and manage all established and new international sales channels.

Don Cherry, President of H.J. Baker's fertilizer division, stated: "We are very pleased Marty will be our new Director of Tiger-Sul Products Management & International Sales. He joins our team at a very important time. Demand for fertilizer products, and especially sulphur products, is growing throughout the world. In order to continue to meet that increased demand we must ensure we have the raw materials, finished products, and superior quality that our customers have come to expect. Marty is highly qualified and will help ensure that happens."

Martin Campfield graduated from Pennsylvania State University with a Bachelors of Science degree in Agronomy. Most recently, he was a Global Products & Key Account Manager with Harsco, Inc. in Camp Hill, Pennsylvania where he worked with the production, quality, and sales teams in the United States, Canada and Brazil. Previously he was a Business Development Manager at NSIA, Inc., an agriculture firm providing nutrient solutions and consulting services.

Campfield commented: "H.J. Baker is a leader in the global agriculture industry and exactly the type of company I want to be associated with. Their TIGER® products are a superior sulphur bentonite fertilizer that crop producers worldwide can use to maximize yields. Their customer service is outstanding and they are expanding their production capabilities. They are growing geographically and also in terms of developing new products. Their TIGER® Boron 2% was well received recently as a ground-breaking new product and others are to be introduced in the future. I am happy to be a part of a team that I know is doing great things for our industry."
